

Toyota Inventory Profile

TIP Program

You can't stock everything so let's ensure we stock the BEST mix of Parts!

The TIP Program helps ensure that the Parts Department has the best inventory to support the maintenance & repair needs of your customers while improving workflow efficiency & higher profits

TIP Program will:

- Capitalize on the capabilities of your DMS to accurately & correctly match customer demand with in-stock supply
- Leverage the parts management knowledge, DMS transactional data, and Toyota national volume data to identify and plan the best mix of parts to stock and return
- Provide a thorough review of all DMS parts settings to confirm they are ideal for your business plan
- Highlight any improvement opportunities and assist and support with those approved changes

TIP Benefits:

- Accurate stock orders
- Increased off-shelf fill rates
- Increased Service Labor Sales Capacity
- Reduction in Carryovers, 2nd visits
- Expense reduction
- Fewer Emergency Purchases
- Higher satisfaction for everyone Employees and Customers
- Increased DMS Setup and Utilization IQ
- Confirmation of Dealership Processes, Procedures, and DMS Operations
- Custom Reports/Tools Provided
